

## Dr Alan M Gray

Consultant Clinical Psychologist (specialising in neuropsychology)

### Professional Qualification

DClinPsy (Doctorate in Clinical Psychology) – University of Sheffield  
M.A (Hons) Psychology (Upper Class Second) – St Andrew’s University

### Professional Membership

HCPC (Health and Care Professions Council)  
BPS (British Psychology Society)  
Division of Clinical Psychology  
Division of Neuropsychology

### Supporting Statement

Dr Alan Gray is a Consultant Clinical Psychologist specialising in neuropsychological assessment and rehabilitation. He joined Headwise in 2012 after previously working in specialist NHS neuropsychology services at the John Radcliffe Hospital (Oxford) and Royal Hallamshire Hospital (Sheffield). Dr Gray is Clinical Lead at our Oxford office and provides neuropsychology services for patients in surrounding counties.

He has considerable experience of working with both adults and children, offering neuropsychology input for the purposes of differential diagnosis, treatment planning, psychotherapy, brain injury education, cognitive rehabilitation, challenging behaviour interventions, and assessments of capacity, cognition, mental health, and risk. His preferred therapeutic approach is Cognitive Behavioural Therapy (CBT), but he is skilled in a range of therapeutic models.

Dr Gray lectures at the universities of Birmingham and Sheffield, where he provides teaching on neuropsychology, dementia, and neurosurgical approaches to movement disorders. He is employed as an external examiner by Lancaster University. His research interests include Parkinson’s disease, deep brain stimulation, caregiver burden, and performance validity testing. His research has been published in peer-reviewed journals and he has been invited to various international conferences to discuss his work.

### Employment

#### **Clinical Psychologist in Neuropsychology**      *December 2012 – Present*

Headwise Ltd, Innovation Centre, Longbridge Technology Park, Birmingham, B31 2TS

- Development and provision of neuropsychological services to a national provider of inpatient neurorehabilitation (Voyage Care).
